AUTHORIZATION FOR TREATMENT

This health history is correct to the best of my knowledge and the person herein named has permission to engage in all activities except as noted.

I hereby give permission to the medical personnel selected by the backcountry guides to order X-rays, routine tests and/or treatment; to maintain and/or release any medical records necessary for insurance purposes as outlined under the HIPAA regulations; and to provide or arrange necessary related transportation for me or my child. In an emergency, I hereby give permission and authorize the physician selected by the backcountry guides to secure or administer emergency medical treatment, including hospitalization and any other emergency medical procedures that may be needed for the person named herein. I authorize the physician or dentist to call in any necessary consultants in his/her discretion. It is understood that this consent is given in advance of any specific diagnosis or treatment being required, and is given to encourage those persons who have temporary custody of the minor, and said physician or dentist to exercise their best judgment as to the requirements of such diagnosis or medical, dental or surgical treatment.

I agree to remain fully liable and responsible for the payment of any such hospital, doctor, ambulance, dental or medical fees. I further agree that in giving this permission and authorization, the backcountry guides do not assume any responsibility or liability for the payment of such hospital, doctor, ambulance, dental or other medical fees that may be incurred.

I understand that the backcountry guides are certified in wilderness medicine and practice extensive safety measures but that this does not remove the risks of personal injury, death and property damage associated with adventure camping. I hereby assume and accept responsibility for these risks and covenant not to sue or assert any claim against the backcountry guides arising out of my or my child's participation in this camping experience.
